MOTOTRBO **APPLICATIONS**

MOTOTRBO™ APPLICATIONS

With a wide range of applications and an expert application partners program, MOTOTRBO offers custom solutions that truly meet your business needs. Business-specific applications like these increase the level of efficiency, safety and productivity throughout your enterprise.

ALARM MANAGEMENT
Be alerted and respond rapidly with tracking applications that can monitor and remotely operate doors, gates, lights, sprinklers and more.

FLEET MANAGEMENT
Use GPS location tracking to monitor vehicles and manage logistics. Determine the speed and location of vehicles and monitor driving characteristics, fuel consumption and ignition status.

INTEROPERABILITY SOLUTIONS
Interoperate seamlessly and efficiently with other radio systems, telephony systems and mobile computing devices. Patch private calls, group calls and All Calls.

PERSONNEL TRACKING
Collect field data such as meter readings, school bus time and attendance and hospitality supply requests. Enhance workforce safety with lone worker and man-down emergency alarms and All Calls.

SYSTEM MONITORING
Stay in control of your communication system, with applications that track performance by site, channel, slot and talkgroup. Send automatic alerts to system administrators, and generate reports for long term trend analysis.
TEXT MESSAGING AND EMAIL
Quickly and easily share information when voice communication isn't practical. Send messages or directions that don't need an immediate response, or when voice calls are disrupting to employees in the field or on the road.

VOICE DISPATCH
Control your mobile workforce from a centralized location. Dispatchers can be notified each time a radio is turned on and display a comprehensive view of who is available and who is not. GPS coordinates allow the dispatcher to immediately see where the user is on a map.

WORK ORDER MANAGEMENT
Manage workflows directly on the radio. Mobile workers can notify dispatch when the job is done, letting you track cycle time. Resolve customer issues faster, speed up response time and use your workforce more efficiently.

BE IN-TOUCH AND UP-TO-THE-MINUTE WITH MOTOTRBO APPLICATIONS
Take your business beyond voice and ensure all your people stay connected with the speed and efficiency of data. Whether sending a text message to crews doing road repairs or using the integrated GPS module to manage your fleet, MOTOTRBO makes response time more immediate, customer service more effective and your operation more productive.

With the industry's largest Application Developer Program, MOTOTRBO offers a wide range of data applications to expand communication beyond voice. Plus, you can work directly with third-party developers or your IT staff to create customized applications for your unique needs.

PUT MOTOTRBO'S APPLICATIONS TO WORK

ENHANCE SAFETY AND ACCOUNTABILITY
GPS location tracking allows efficient tracking of workers, vehicles and business assets to enhance safety and productivity.

ACCELERATE RESPONSE TIME
Work order ticket management solutions help expedite resolution of customer issues, enhance the efficiency of personnel responding to issues and generate reports to create efficient work flows.

STAY IN CONTROL
Conveniently monitor machine or facility alarms, and remotely control doors with advanced telemetry solutions.

MOBILIZE YOUR TEAMS
Effectively manage fleet operations and extend access to radio functions via an IP connection from remote locations.

STAY CONNECTED
Send and receive text messages and emails directly from your MOTOTRBO radio. Enhance worker safety and productivity by integrating with phone systems to make phone calls in places where mobile phone coverage is not available.

CONNECT WITH OTHER DEVICES
Interoperate seamlessly with technologies such as other radio systems, telephony systems and mobile computing devices.
